Welcome to JABSOM

The University of Hawaiʻi at Manoa, John A. Burns School of Medicine (JABSOM) opened in 1965 as a 2-year program of basic medical sciences, and became a 4-year degree granting program in 1973.

JABSOM is composed of 5 Allied and Basic Sciences Departments and 10 Clinical Sciences Departments.

As part of the fabric of Hawaiʻi, JABSOM a diverse learning community committed to excellence and leadership in:

• Educating current and future healthcare professionals and leaders.
• Delivering high-quality healthcare.
• Conducting research and translating discoveries into practice.
• Establishing community partnerships and fostering multidisciplinary collaboration.
• Pursuing alliances unique to Hawaii and the Asia-Pacific region.
• Acting with Pono, forethought regarding right relationships, respect, and moral action.
What Is a Non-Compensated Faculty Appointment?

Whether it’s supervising medical student rotations, providing guidance to residents in the clinical setting, performing important scientific research in our labs or teaching in our classrooms, non-compensated faculty members contribute immensely to the Mission of JABSOM.

Positions in the Clinical setting include:
- Clinical Instructor
- Assistant Clinical Professor
- Associate Clinical Professor
- Clinical Professor

Positions for Adjunct Faculty include:
- Adjunct Instructor
- Adjunct Assistant Professor
- Adjunct Associate Professor
- Adjunct Professor

NON-COMPENSATED CLINICAL AND ADJUNCT FACULTY PROVIDE INVALUABLE SERVICE TO JABSOM:

Tutorials
Formal Teaching
Field Guidance
Clinical Instruction
Research
Integration of practical real world experience with instruction

TESTIMONIALS

“I find it fulfilling to know that I can contribute to their education, and make a positive impact in their lives and the lives of their patients as they advance in their training. Finding JABSOM students enthusiastic and eager to learn has made my experience all the more rewarding.”

- Alice Smith, MD - Assistant Clinical Professor

“The adjunct professor appointments provide an excellent opportunity for JABSOM students to obtain experience in translational research in active clinical investigation programs in the Hawaii biomedical community. Students are able to engage in physiology research involving molecular biology, organ systems function evaluation, whole animal models, and human clinical trial applications.”

- Catherine Uyehara, PhD
Clinical Adjunct Professor

For more information about opportunities for non-compensated faculty, please contact your department Chair.
Appointment Process

In order to be eligible for a non-compensated faculty appointment, you must submit the following documents to your department:
